

Salvador Dali (May 11, 1904- January 23, 1989)

Salvador Dali is an amazing Spanish painter he was known for bizarre images in his work of surrealism. His artwork wasn't just limited to paint it also included film, sculpture, and photography. He is a very imaginative guy, therefore many questioned his art, but he didn't care, he felt that art was an expression of his abstract thoughts. He did a lot of his artwork around many famous world renowned events. I plan on creating a website of his artwork, like a timeline art gallery.
